

LUCA LITTLE – BIG

(VÖ: 1.3.2010 / Fontastix)

On the highway with his band, he takes at once the exit pop, and then it starts getting wilder, the motor roars up, and from time to time one waves out of the pit stop. The whole way with a lot of power and heart.

The album “Big” (Fontastix), released in March 2010, was produced and mixed by Dave Hofmann (Heidi Happy, Song Circus, Leech, Slam & Howie, The Sad Riders, Urban Junior, etc.). Frank Niklaus (FFRecords, HNO) was in charge of mastering.

Studiowork may be nice, but Luca Little wants to go on stage and take his music to the people.

Luca Little has played together with bands such as Ten Years After (UK), Heidi Happy (CH), Reto Burrell (CH), Rökkurò (ISL), as well as abroad.
